kWp

Façade-mounted
PV system

BAE Systems Hägglunds, a subsidiary of BAE Systems AB, has installed a 370 kW photovoltaic (PV) system at its headquarters in Hägglunds, Sweden. The system consists of 1,465 Trina Solar TSM-DC05A.05 H modules, which are monocrystalline silicon solar panels. The system is expected to generate approximately 312 MWh of clean energy annually. The installation was completed in November 2015.

The system is a grid-tied PV system with a capacity of 370 kW. It is designed to provide clean energy to the company's operations. The system is expected to pay for itself within 4.2 years.
